Connect a DVI enabled source to a DVI 4K display

- Conforms to HDMI Ver 2.0 Specification. Data rates up to 10.2 Gbps. Refresh rates to 120Hz. Colour depth to 48 bits - 16 bits per colour
- HDMI Ethernet Channel can take advantage of IP-enabled devices without a separate Ethernet cable.
- Supports ARC (Audio Return Channel, which allows a HDMI host to transmit audio data upstream eliminating the need for a separate audio cable

User Interface

Input DVI-D Dual Link Male x 1

Output DVI-D Dual Link Male x 1

Resolution

Up to 3840 x 2160 @ 30Hz

Data Rate

Up to 9.9Gbps

Package Includes

DVI to DVI Cable x 1

Physical Characteristics

- Gold-plated contacts
- TPE (Thermo Plastic Elastomer) low profile connectors
- Foil shielded and braid shielded
- 28 AWG copper conductors
- Ferrite Core to reduce interference

Warranty

Lifetime
