

1 Overview

This ALOGIC adapter allows you to add two 4K 60Hz DisplayPort monitors to single Thunderbolt 3 port (USB-C™) output on your computer. This compact and convenient 2-port graphics adapter with audio support provides you with great mobility alternative which you miss out on traditional dual display docking stations. In Case your host device has got a 2 Thunderbolt 3 outputs, using this Thunderbolt adapter for dual video outputs, leaves the other Thunderbolt 3 port free for additional additional peripherals. It also supports video output of up to 5K resolutions through 2 DisplayPort channels.

2 Features

- * Supports resolutions up to 4K dual monitor or 5K single monitor at 60 Hz.
- * Doesn't drain computer resources to output 4K dual monitor video.
- * Host powered - no external power required
- * Requires DisplayPort to HDMI / VGA / DVI Active cable when using these connections on display device (Monitors)
- * Warranty: Life Time

3 Specifications

- * Audio : Yes
 - * Output Signal : DisplayPort
 - * Maximum Data Transfer Rate : 40 Gbps
 - * Maximum Digital Resolutions : Dual monitor: 4K @ 60 Hz
 - * Supported Resolutions : 4096x2160/3840x2160/2560x1600/1920x1200/1920x1080/1280x720
- Note: The adapter can support 5120x2880 (5K) when both DP outputs are connected to single monitor that supports 5K
- * Connector A : 1 x Thunderbolt™ 3 USB-C (24-pin) Male Input
 - * Connector B : 2 x DisplayPort (20 pin) Latching Female Output
 - * Product Height : 26 mm
 - * Product Length : 220 mm
 - * Product Weight : 500 g
 - * Product Width : 80 mm
 - * Shipping (Package) Weight : 0.2 kg
