

VIDEO ADAPTER

HDMI (F) ▶ HDMI (F)

Coupler

- Female to Female

Part no. H DFFR

Extend an existing installed HDMI Cable with another HDMI Cable

The HDMI (F) to HDMI (F) Coupler - Female to Female is used to connect two HDMI cables. The most typical application is when a an existing installed cable needs to extended further, the HDMI coupler avoids the need to re-install a complete new cable and allows for the use if another cable of the required length to be connected to the existing cable by using the coupler in between them.
