Quick Start Guide

Quick Start Guide

Introduction

The ALOGIC USB 3.0 to DVI/VGA/HDMI* Multi Display Adapter makes it possible to convert any existing USB 3.0 port on a Laptop/Desktop into a DVI/VGA*/HDMI* output, with resolutions up to 2048x1152.

*The adapters come included with a VGA converter (DVI to VGA converter), which allows conversion to a VGA output. For HDMI output, DVI to HDMI adapter (DVI-HDMI-MF) is to be purchased separately.

Specifications

Model	U3DVVG-ADP

- USB Cable x 1
- DVI to VGA Adapter x 1

Physical Layout

- 1 USB 3.0 Cable
- 2 DVI Port

Installing the Driver

1. Insert the provided CD into your disc drive and the installer program will run automatically when the Driver CD is inserted. Then follow the on-screen prompts to complete the installation.
For Windows® 7/ Windows® 8/ Windows® 8.1/ Windows® 10 users:
A. Please click on Run Setup.exe to execute the installer program.
B. Wait for the program to install the drivers.
2. Or please go to <http://www.displaylink.com/downloads> to download the appropriate driver from the website

Making the Connection

Please connect the adapter to your monitor or computer after driver installation is completed.

NOTE: Please wait while DisplayLink software is configured for first use as below. Your screens may temporarily go black or flash during this process. Please click "OK" to start to use the adapter.

Note

- Do not deliberately damage this product and put it in damp, direct sunlight or high temperature environment.
- If improper use, demolition or operation not according to the instructions result in any damage of your device or product, our company will not be liable for any compensation or maintenance responsibility.
