- 5 USB 3.0 A Hub
- 6 Audio/Voice 3.5mm Port
- 7 Gigabit Ethernet
- 8 Thunderbolt™ 3 Port
- 9 Thunderbolt™ 3 Computer Input Port
- 10 HDMI Port
- 11 Power Port

Making the connection

1. Connect the DC power adapter to the dock for powering the dock. Connect the included Thunderbolt™ 3 cable between the Thunderbolt™ 3 port on the laptop and to the computer input Thunderbolt™ 3 port (●) on the dock.
2. Connect the external displays to the docking station's video ports using 1 × HDMI port and 1 × Thunderbolt™ 3 port (●).
3. Connect the USB peripherals, Ethernet and microphone/headphone to the corresponding connectors.
4. A mobile device can be also charged by connecting to the docking station's USB fast-charge port.
5. Insert the SD card to the card slot to copy data, photos, songs, videos and movies at high speed.

Multi-monitor Configuration

Use your Windows or Mac operating system to adjust display settings for multiple monitors.

Note

- Do not deliberately damage this product and put it in damp, direct sunlight or high temperature environment.
- If improper use, demolition or operation not according to the instructions result in any damage of your device or product, our company will not be liable for any compensation or maintenance responsibility.
