

Model: P10QC10P18-BK, P10QC10P18-WH

Battery Type: Lithium-Polymer

Capacity: 10,000mAh

Input: USB-C

Output 1: USB-C: Up to 15W (Power Delivery)

Output 2: USB-A: Up to 12W (Fast Charge)

Output 3: 10W (Wireless Charging)

LED: Wireless Charging Indicator

LCD: Numerical Battery Charge Indicator Display

Output Voltage Selection: Automatic

Dimension HxWxL(mm): 145 x 70 x 45

## Packaging Includes:

USB-C 10,000mAh Power Bank

Ultimate with Fast Charging

User Manual

## LED Light Meaning:

Power On: Red and blue LED light flashes for three times

Charging: Breathing blue LED lights

Standby: Solid blue LED light

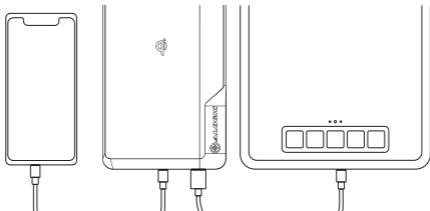

Fully charged phone: Slow breathing blue LED light

Foreign object detected: Flashing red LED light

# How to Use

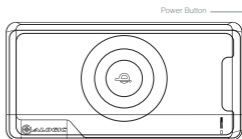

## Charging the Power Bank

- 1) Before using the ALOGIC 10,000mAh USB-C Power Bank Ultimate for the first time, fully charge the device by using a USB-C cable and a compatible wall charger (Wall charger not included)  
The LCD display will flash and show the battery capacity to indicate charging.

## Charging Wirelessly

- 2) Activate the power bank's wireless charging by pressing the power button twice. The wireless LED indicator will flash blue and red three times to indicate that the wireless charger is on.
- 3) Place your Qi-enabled device on the printed Qi logo. Ensure that the centre of your device is aligned with the logo.

## Understanding LED lights

Standby: Solid blue LED light

Charging: Breathing blue LED light
