How to Use

Charging your device with USB-A Ports

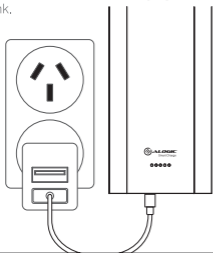

Connect the USB-A end of the charging cable in the USB-A port of the power bank and the other end of the cable in your device. As soon as the cables are connected LED indicators will light up to show the power bank is switched on and charging your device. You may need to push the power button if the LEDs do not light up on connecting the cable to start the power bank.

The same applies for the other USB-A port. You can use both ports simultaneously to charge multiple devices.

Charging the power bank with a Wall Charger

Connect to the Power Bank's Micro USB Port to a USB Wall Charger using a USB-A to Micro USB Cable. It's recommend to use the cable provided in the box for charging the power bank.

Charging the power bank with a Computer

Connect to the Power Bank's Micro USB Port to a the computers USB Port using a USB-A to Micro USB Cable. It's recommended to use the cable provided in the box for charging the power bank.
