# How to Use

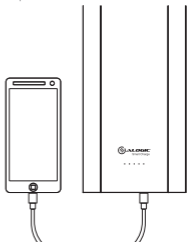

## Charging your device with USB-A Port

Connect the USB-A end of the charging cable in the USB-A port of the power bank and the other end of the cable in your device. As soon as the cables are connected, LED indicators will light up to show the power bank is switched on and charging your device. You may need to push the power button if the LEDs do not light up on connecting the cable to start the power bank.

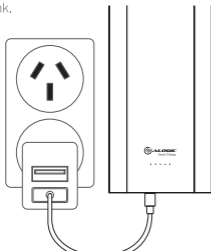

## Charging your device with USB-C Port

Connect the USB-C end of the charging cable in the USB-C port of the power bank and the other end of the cable in your device. As soon as the cables are connected, LED indicators will light up to show the power bank is switched on and charging your device. You may need to push the power button if the LEDs do not light up on connecting the cable to start the power bank.

## Charging the power bank with a Wall Charger

Connect to the Power Bank's USB-C Port to a USB Wall Charger using a USB-A to USB-C Cable. It's recommended to use the cable provided in the box for charging the power bank.

## Charging the power bank with a Computer

Connect to the Power Bank's USB-C Port to a computer's USB Port using a USB-A to USB-C Cable. It's recommended to use the cable provided in the box for charging the power bank.
