Quick Start Guide

Introduction

The ALOGIC Ultra Wireless Charging Pad 10W is an efficient, portable and safe charger for your Qi-enabled devices such as your Apple or Samsung smartphone. The charger is equipped with Qi technology to allow fast charging for your device at an optimal and safe speed. Use the charging pad with the supplied adapter that is equipped with Quick Charge 2.0 to activate Fast Charging.

Specifications

Model	ULQC10W-SGR-AUNZ ULQC10W-SLV-AUNZ
Input	USB-C 5V/ 2A or 9V/ 1.8A
Output	Up to 10W
Warranty	2 Years

Features

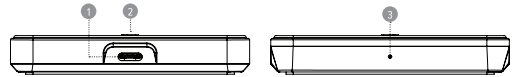

- Wireless charging supports up to 10W and is optimised with 7.5W for iPhones for an ideal charging speed
- Qi-enabled accessories such as wireless earphones can also be charged
- Crafted with a fabric top and metal alloy base with a chrome finish for a minimalistic design
- Qi certified to ensure optimal charging
- Features LED indicators for an at a glance charging status
- Foreign object detection indicator

Package Contents

- Ultra Wireless Charging Pad
- 1m USB-C to USB-A cable
- 18W Wall Charger
- User manual

Physical Layout

- 1 USB-C
- 2 Qi Charging Surface
- 3 LED indicator

Operating Instructions

1. To commence fast charging, connect the Ultra Wireless Charging Pad via the provided cable to the supplied Quick Charge 2.0 wall adapter. A solid white LED light will appear to indicate that the device is on and in standby mode.
2. Place your Qi-enabled device on top of the charging pad. Make sure that the centre of your device is aligned with the Qi logo on top.
3. The LED lights will blink white to indicate that a successful connection has been established and charging has commenced.
4. In the event that a foreign object is detected, or if your device is emitting a high temperature, then the LED indicator will turn red as per the table below.

Understanding the LED lights and their meanings

- Slow Breathing White LED (3 second intervals) indicates charging is in progress
- Very Slow Breathing (6 second intervals) indicates that the device is fully charged
- Solid White LED indicates the device is fully charged or the charger is ready to be used
- Flashing Red LED when foreign object detection (FOD) is activated
- Solid Red LED when over temperature is detected
