

Specifications:

Model: CO-C18C8PWH, CO-C18C8PBK

Input: AC 100-240V 50-60Hz

Output: USB-C: 5V/3A, 9V/2A, 12V/1.5A

Power Output: 18W

Output Voltage Selection: Automatic

Dimensions (mm): 45(L) x 29(W) x 50(H)

Colour: White or Black

Packaging Includes:

USB-C Wall Charger

1m Elements USB-C to Lightning cable

User Manual

FCC Warning

This device complies with part 18 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

How to Use

Charging your iPhone or iPad using the USB-C port on the Wall Charger

Connect the Wall Charger's USB-C port to your mobile or tablet using the included USB-C to Lightning Cable.

Automatic Output Voltage Selection

The USB-C with PD can detect the connected device and deliver the right amount of power to charge your device at the most optimum speed.
