MagForce Express USB-C 4-in-1 USB Hub with Ethernet

MagForce EXPRESS USB-C 4-in-1 USB Hub with Ethernet unlocks your laptop's full potential. It's equipped with three speedy USB-A ports to activate all your favourite USB desk accessories, including flash storage drives, printers, scanners, mice, and keyboards. Plug into the hub's Ethernet port when a stable and secure connection is essential.

Made Compact with Patented MagForce Technology

ALOGIC's new MagForce technology magnetically contains your in-built adapter cable when your adapter is idle, significantly reducing the space the adapter occupies.

The ultra-light adapter's slimline features make it a perfect companion on your desk, in your pocket, or in your bag.

A Stylish and Durable Hub

The MagForce hub is purpose-built to absorb the daily push and pull of an hub's life. It is constructed out of an exceptionally resilient mix of metal alloy casing, soft-touch TPE [thermoplastic elastomer] shielding, and silicon reinforcement, so you can stay connected without disruption. The two-year warranty-backed hub's mix of matte and aluminium accents are also a stylish visual complement to the design aesthetic of modern laptops.

User Interface

Input	USB Type C (Male)
Output	3x USB-A (Female) 1x RJ45 Ethernet (Female)

Environmental Conditions

Operating Temperature	0°C to +45°C
Operating Humidity	10% to 85% RH (no condensation)

Physical Characteristics

Product Dimensions	30x15x40 mm (LxWxH - Folded) 30x15x280 mm (LxWxH - Unfolded)
Cable Length	150mm (approx.)
Weight	75g

Package Includes

- 1x MagForce Express USB-C 4-in-1 Hub
- 1x User Manual

Data Rate

USB Ports	USB 3.2 Gen 1, 5Gbps
Ethernet	10/100/1000Mbps (1Gbps)

Power

Bus powered from host USB port

Device Compatibility

Compatible with Windows, MacOS and ChromeOS machines with an available USB-C port

Warranty

2 Year
